SECTION – B**Q.6**

What is a précis? Give its qualities. (20)

Q.7

Read the following passage and answer the questions given at the end:

"Computers have revolutionized the modes of thinking and reasoning today. No other media can provide us information as speedily as a computer can through internet service. In the field of medicine, computers can diagnose diseases even before their occurrence. In education, information technology has contributed a lot. It has made every piece of information accessible for a common man wherever he lives. Information technology has not only eased up our lives but also changed our trends. We have accepted its power, but we should not lose our power over it. It is nothing without human skills. We should keep our doors open to welcome information technology but should not let it create huge gaps between human beings."

Questions:

1. How can we be provided information speedily? (3)
 2. How do computers help the medical profession? (3)
 3. What should be our attitude towards information technology? (3)
 4. Make a précis of the passage and give it a suitable title. (11)
-
